## ZF85 IV 2.0 Gear Question

Hello:

Here is a quote for the ZF85 IV 2.0 gear. I assumed a mechanical shift (or do you need hydraulic) and a SAE #3 housing (if you tell me your engine I can confirm).

Still have not got an availability for this as of now.

J.D.

\*\*\*\*\*

6 cylinders in line

4 times

Power: 330 HP (243 KW)

Could you confirm to me if this ZF 85 IV can replace our old ZF HSW800? And what more it needs to add to work well with are engine. Please let me know and than I will send to you the information to make the invoice.

Sincerely,

A.
