PCM Ford 302 Rear Seal Question

Hello:

I can't find anybody who has this rear seal for this counter rotating PCM Ford 302.

I show (and PCM confirms) that the Ford ID # was E2JE-6701A2A although I couldn't find anyone to find this one.

I contacted Fel Pro and they didn't have one either.

Incidentally, I talked with one of my mechanics and he confirms that they are different so you can't use the standard seal as there are little ridges that sort of throw the oil back in the block and if use a standard one it will throw the oil out instead of in.

I guess you are going to have to call around and see if anyone has the R047127 in stock.

Sorry I could not be of more help.

J.D.
