

Part Number

I am looking for an EDC 4" Display #874293 but can't find it. Where do I look?

Volvo Penta changed the part number again (same price and same part but with a new part number and harness).

So the original EDC 4" Display was a 874293 which changed to a 881674 which changed to a 22629329 which changed to a 22776951 and finally went to a 22949191 (which includes the adapter harness).

Unique solution ID: #1244
