

Volvo Penta

Paint for Volvo 270/280 Question

Hello:

Part number 1141567 is the paint for the Volvo Penta 270 and some early 280 outdrives. Volvo Penta formulates the paint through a vendor (which may cause a delay in delivery) and if the paint can has the proper number on it 1141567 that color is the blue/grey which sort of looks greenish.

Can you confirm to me which outdrive you have? I will look it up and make sure you ordered the correct paint.
