

Volvo Penta

Volvo Sealant 1161099 Expired/ Permatex #3

Question

Hello Sir:

The sealant 1161099 is no longer available from Volvo Penta.

However, Volvo Penta mentioned, in one of their service manuals, that you can use Permatex #3 can be used instead.

I can supply you with this or you can run down to NAPA and get it from them.

Let me know which way you go and I will process the order.

J.D.
