Turbocharger

Do you have a pipe elbow for 3K K26 turbocharger?

Hello:

We probably can do this for you, but can you give me the model number and/or serial number of the engine.

While the K26 turbocharger is made by B/W, the elbows are usually supplied by the engine manufacturer.

Some times they are made by B/W, but more often not. So Cummins uses the K26 on a lot of their engines, the exhaust elbow is made by a company in Florida for Cummins.

J.D.
